## COLOURS AVAILABLE:

*"No one knows Bricks, Blocks and Pavers better"*

# ISLAND BLOCK & PAVING PRODUCT INFORMATION

## FREESTONE ECO RETAINING WALL SYSTEM

The Freestone Eco Retaining Wall System is a sustainable, environmentally friendly DIY retaining wall. Each block has self locating lugs which easily lock into the block above to provide a vertical wall. The Freestone Eco Retaining Wall System is manufactured with up to 40% recycled glass aggregate and is treated in manufacture to expose the glass coloured aggregate on the surface to achieve a unique exposed glass finish. Purpose made 90 degree corner and bullnose capping units are provided for ease of construction and to provide a complete system.

[islandblock.com.au/freestoneeco](http://islandblock.com.au/freestoneeco)

## FREESTONE ROCKFACE

Freestone Rockface incorporates purpose made corner and capping units to provide classical reconstructed stone retaining walls. Each has a split textured finish and only a 10mm setback, which allows all available space to be utilised to the maximum. Curved or straight walls can be erected and it is easy to build 90-degree corners with the purpose made corner blocks. A capping unit is adhered to the top course of blocks. Blocks are suitable for walls up to 6 metres high.

## GARDEN RETAINING WALL

The Garden Retaining Wall is an attractive Interlocking Wall System which has the natural look of quarried stone and blends into any landscape situation with its sculptured rock-face texture. Available in 2 colours, each block interlocks to the block below and creates a 50mm setback per course. The Garden Retaining Wall can be built straight, curved or terraced to fit into the contours of the embankment.

## ARTIFICIAL GRASS

Island Block & Paving stock a range of low maintenance, weed free, waterless, premium grade artificial grass which is available in 2 metre and 4 metre roll widths. The Artificial Grasses are of the highest quality and available in Premium Grass 40 grade. A comprehensive installation guide and DIY video is available.

## WEEDFREE PAVERS

Island Block & Paving produce a full range of coloured Weedfree pavers, available in many shapes and sizes. Weedfree pavers are suitable for entertaining areas, driveways, paths, pool surrounds and commercial paved areas. The Weedfree pavers are manufactured with Tech-Dry water repellent additives which inhibit weed and moss growth because they don't absorb water. This ensures that any future maintenance is kept to a minimum.

## PAVERS FOR THE FUTURE

Patented and Global Greentag Certified, Pavers for the Future are an environmentally responsible product with many benefits. Pavers for the Future are durable, low maintenance, stain resistant, slip resistant and have a variety of unique surface finish options. Pavers for the Future predominate sizes are 400mm x 300mm x 65mm thick and 300mm x 200mm x 65mm thick, design to withstand commercial traffic as well as high pedestrian volumes.

## EXPOSED AGGREGATE PAVERS

Island Block and Paving offer a comprehensive range of exposed aggregate finished Weedfree pavers. Exposed aggregate pavers can be manufactured specifically to an architect's specification ie. colour, aggregate type and the degree of shot blasting can all be varied to suit an individual design. Exposed aggregate pavers are non slip because of their texture and are used for many applications.

## DRIVESTONE PAVERS

Drivestone pavers are the biggest and the best exposed aggregate driveway pavers available. They are a massive 400mm x 300mm x 65mm thick and are suitable for residential driveways, or light commercial vehicle areas. Drivestone are easy to lay, are delivered to site pre finished with the exposed aggregate finish and provide a non slip driveway finish.
